Adventure/Exploration Games

"The Scribe's Journey"
Players start as a novice scribe in a vast, ancient magical library filled with scrolls and texts written in forgotten languages and symbols. The main mechanics revolve around uncovering hidden spells and the lore of ancient civilizations through annotation and symbol interpretation. Each scroll is a puzzle that challenges players to identify and replicate proper annotations based on subtle clues left in the text. As they progress, they might encounter historical guardians or mysterious figures who offer cryptic advice or warnings, adding layers of mystery and stakes.
